

DJ plus Saxophone

Johannes Heretsch
&
Martin Willy

Technical Rider

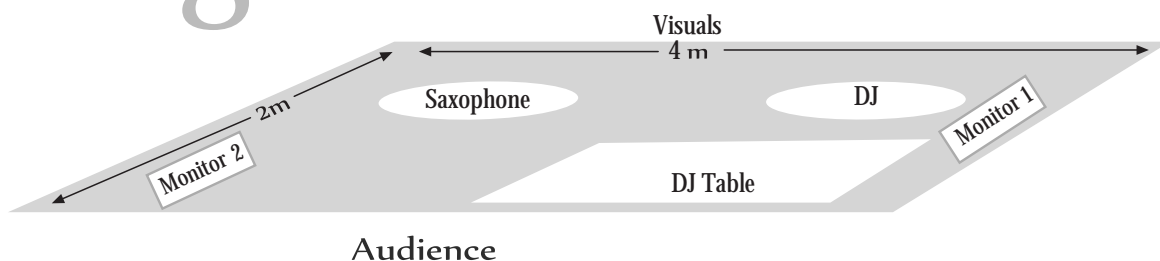

- 2 CD Player: from Pioneer CDJ 350
- 2 Monitor- Box
- 1 DJ-Mixer: Pioneer DJM-900SRT
- 1 Little Desk- lamp
- 1 DJ Table

*the sax microphone will be plugged into the MIC 2 of the mixer
and it requires two 220v sockets

For Visuals:

- 1 A screen (preferably behind the decks) for projections-Screen approx 3m x 2.5m
- 1 DVD- Player or Notebook as source connected with
- 1 Projector

Stage Plot

For DJ plus saxophone you should have
at least a space of 4m x 2m

That's roughly equivalent
4 stage platforms 2 x 1m height 0.2-1m
